Why CrocoDialHunt?

Our idea of introducing a low budget search product on the market results from more than 20 years of experience in personnel consulting and personnel research Experience in our business area, a customer-focused approach, market research and a constant quality evaluation within Search Executive Group showed that businesses are always willing to invest in personnel consulting and personnel research. More than ever, companies want to minimize their expenses and require comprehensible accounts.

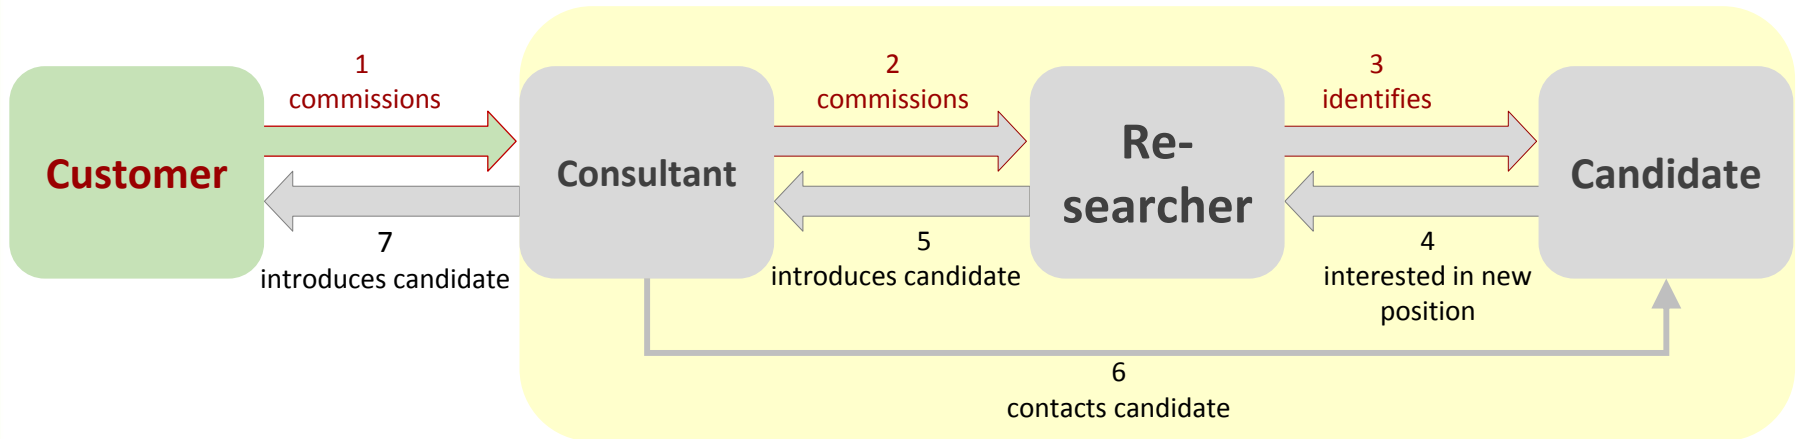

CrocoDialHunt offers the most professional solution for making personnel research service costs transparent and calculable.

Fast
Efficient
Economic
Transparent

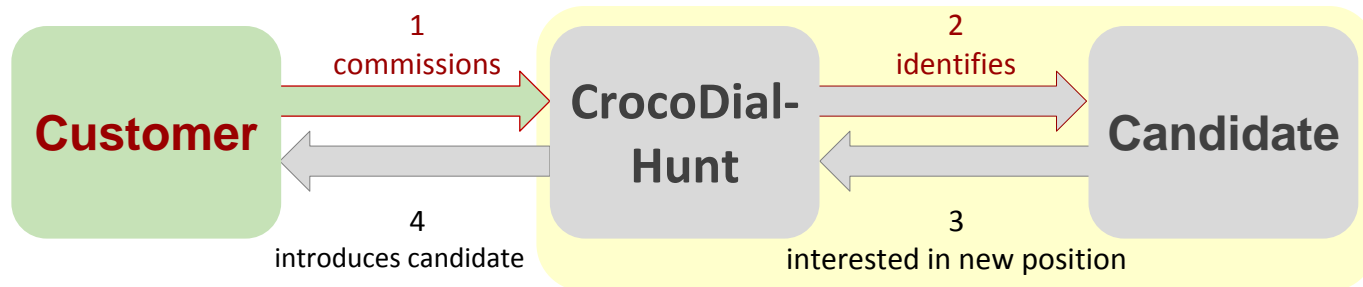

CrocoDialHunt noticeably reduces the time necessary for a candidate to actually meet the customer, which reduces costs.

Conventional research process steps

CrocoDialHunt optimized process

Your CrocoDialHunt Advantages

- Telephone marketing and job marketing, specific presentation of your business
- Suitable candidates are contacted, motivated and consulted professionally
- Personal interviews are scheduled professionally and quickly (coordination of client and candidate)
- Work results are documented and made available to you in form of contact lists and project tracking lists, resulting in ...
- ... more transparency and more interaction possibilities
- Priorities can quickly be changed in a current search. Changes are effective at once.
- Documents (CV, certificates, references) of all candidates willing to negotiate are made available to you
- If interested, you may receive business area, business and market analyses in connection with your search
